Asset management – at national level

- The national accreditation body offers no accreditation to the certification bodies on the asset management domain – at this moment
- There are no Romanian accredited certification bodies in Romania on asset management
- Still, there are some certification bodies offering asset management certification, but foreign
- The market revolves around training, solutions and implementation organisations offering these services to the companies in Romania

New market

- Uncharted territory for certification, consultancy, even training and implementation solutions
- Potential clients:
from authorities, to private entities
